

November 2, 2020

Dear Client:

You are receiving this letter because you receive your services from a clinician based at our Outpatient Services site at 859 Willard Street in Quincy. We are excited to announce that we are moving to a new site at **1501 Washington Street in Braintree. Our new clinic opens on November 2, 2020.** The Willard Street location will remain open through Wednesday, October 27. Services delivered via telehealth will continue as scheduled.

We understand that many of you will continue to receive services via telehealth for the foreseeable future. That will continue to be a clinical decision between your clinician and you. However, we did want to share the information about our new location with all our clients and do hope to see you all again in person soon.

Our new location at 1501 Washington Street is a beautiful, newly renovated space with plenty of parking. We know that many of you use a variety of transportation methods. We have a map and directions via car and MBTA on the reverse side. We did a lot of research before we decided on this new location to make sure that that our staff and clients could make their way to 1501 Washington Street as conveniently as possible. Our phone numbers will remain the same, our new fax number is 781-843-2418.

If you are currently, or plan to soon return to, receiving in-person services, please be aware that we will continue to follow strict infection control procedures to keep you and our staff as safe as possible by reducing the risk of infection. If you are not feeling well, please reschedule your appointment. As we do currently, we will screen you for any symptoms or risk factors that day of your appointment. We have installed modern air systems at our new location and will follow our comprehensive disinfection procedures, as we do now at Willard Street.

If you have any questions, please call our main reception number at 617-847-1909. As we said, we do hope you all eventually get the opportunity to come to our new location and receive your services in person. We can't wait to show off our new home. In the meantime, please stay well.

Sincerely,

Doreen Draheim, Divisional Director Outpatient Service

Jessica Allen, Program Director, Outpatient Services Braintree (formerly Quincy, Willard Street)

Note: Please see the reverse for a map and transportation information for our new location.
